## Introduction

The Directory of Federal Real Property is the central record and only complete listing of real property holdings of the Government of Canada. It is administered by the Bureau of Real Property Management of the Treasury Board Secretariat. The purpose of the Directory is to maintain a contemporary record of basic information concerning the real property holdings of the Government of Canada. Information held in the Directory is used to keep the Government of Canada informed about the scale and major components of its real property inventory. It is also used to provide information to ministers, members of Parliament and the general public, concerning a specific property or group of properties within a particular geographic area.

Although all Crown lands in Canada are owned by Her Majesty, the administration of these lands is assigned to departments, agencies, and Crown corporations to support the delivery of government programs. These organizations are commonly referred to as custodians.

### ■ Exclusions

This publication is designed to provide basic information concerning federal real property such as custodian identification, property size, location, and type of legal interest. It does not contain any information regarding:

- easements, sub-surface and mineral rights;
- mortgages, property held as a surrogate for a mortgage and other forms of security;
- interests in land of less than 0.0001 hectares, unless municipal grants are paid on them;
- leasehold interests of less than a year;
- offshore oil and gas lands;
- Crown lands in the Yukon or Northwest Territories (except those being used by a federal department or agency);
- real property that is an Indian Reserve as defined in the *Indian Act* (except that which is being used by a federal department or agency);
- Bank of Canada holdings;
- Canada Council holdings;
- Canadian Wheat Board holdings; or
- Telefilm Canada holdings.

### Disclaimer

The Directory is not a registry. Although every effort has been made to ensure the accuracy of the listings, the Government of Canada makes no representations or warranties and assumes no liability with respect to the use of these listings. These listings are not, under any circumstances, to be used as a substitute for legal property descriptions and professional legal advice.

## Obtaining more information

Additional information about the Directory and this publication may be obtained from the Bureau of Real Property Management at 1-800-561-3377, or by writing to the address below.

Directory of Federal Real  
Property,  
Bureau of Real Property  
Management,  
Treasury Board Secretariat,  
11th Floor, East Tower,  
140 O'Connor Street,  
Ottawa, Ontario K1A 0R5

For persons with a visual disability, the information contained in this publication can be obtained in electronic format by writing to the address above or by telephoning 1-800-561-3377.

In addition, persons with a hearing impairment may access TDD services through the Treasury Board Secretariat's TDD information number at (613) 957-9090.

## 3 Parkdale

- 4 ECP 5 National Historic Park; 6 (Ardwogan National Historic Park); 7 Hillsborough; 8 1,5500 ha.; 9 2 bldg(s); 10 262 m<sup>2</sup>; 11 LDU 02023; 12 Owned.  
13 Street or Place: 2 Palmers Lane; Charlottetown.

## Understanding a Listing

- 1 **Province:** Provinces and territories are listed east to west. International listings are arranged in alphabetical order by country.
- 2 **Locality reference:** The name of the first and last localities to appear on two facing pages.
- 3 **Locality:** Listings for each province and territory are arranged alphabetically by locality. Localities are defined using Statistics Canada's Standard Geographical Coding System which divides the country into provinces and territories. These are, in turn, further divided into census divisions and subdivisions. A census division is a general term that applies to counties, regional districts, and regional municipalities. The term census subdivisions refers to municipalities, Indian reserves, Indian settlements, and unorganized territories. Localities listed in this publication refer to census subdivisions (see Statistics Canada's catalogues 12-571 and 12-572). International listings are arranged alphabetically by country. Within each country, the listings are sorted by city and custodian abbreviation.
- 4 **Custodian:** The department, agency, or Crown corporation that administers the property on behalf of Her Majesty. Listings for each locality are arranged alphabetically by custodian abbreviation. A list of custodian names as well as the name of the designated contact person is located at the end of this publication.
- 5 **Real property descriptor:** The real property descriptor describes the property's predominant use, e.g. office building or marine navigation light.
- 6 **Official name:** Some listings in the Directory have official names. These official names may have been designated by legislation (Banff National Park), as a result of their historical significance (Rideau Hall), or because of their significance in the region where they are located (Papineau Health Station). All official names are enclosed in parentheses.
- 7 **Federal Electoral District:** A federal electoral district is identified for each property listing in the Directory. If the property extends over more than one electoral district, the electoral district in which the property is predominantly located is identified.
- 8 **Land area:** The total land area for the property, measured in hectares.
- 9 **Buildings:** The total number of buildings located on the property.
- 10 **Floor space:** The number of square meters of floor space, rounded to the nearest square meter.
- 11 **Land Directory Unit (LDU) number:** The LDU number is an inventory number that uniquely identifies each listing in the Directory.
- 12 **Type of Interest:** Identifies the type of legal interest held by the federal government for each property. These are broken down into three major categories: Owned, Leased, and Other.
- 13 **Street or Place:** Listings for properties in urban areas show a street address where one has been provided. If there is no street name or number, an equivalent address that would be understood by people living or travelling in the vicinity is used. Often, in rural areas, the latitude and longitude of the property is recorded. In addition, a place name may be used to describe more precisely the location of the property on a large tract of land. This place name is usually the name of an unincorporated place, such as a neighbourhood or a topographical feature, e.g. Bell's Corners or Green Pasture. If this does not adequately specify the location of the property, the custodian may add additional information. In some cases, an identification number is listed that is specific to the custodian. This number should be used for inquiries to the custodian concerning that property.
